The Players: The 10 Planets

Part One: The Lead Roles

The Sun

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, Katharine and Spencer.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

Sun in Taurus

A Sign is a psychological process through which a planet operates. As a couple, being solarized through the sign Taurus paints your relationship with a desire to seek earthly pleasures and treasures. Seeking comfort is probably a mutual desire. You can establish an alliance colored with a love accentuated with a natural closeness. The keyword phrase for Taurus in traditional astrology is "I have." There is a promise of making key acquisitions together.

A desire to give to each other generously can stimulate trust. A show of affection and genuine caring will encourage a mutual sense of support for each other. A shared sense of emotional and physical wealth makes mutual trust possible. Each of you needs to have some degree of control over the finances. This will probably help maintain the peace. Money can be a touchy issue.

Show an appreciation for what is most valuable to each other. Allowing one another to feel valued fosters an enjoyable bond. Bathe in experiences that make both of you feel successful. Encourage your partner to travel on the highways of life that offer creative fulfillment. Trying new experiences is good for you as individuals and as a couple. A life with little leisure can disrupt the natural flow of your relationship. Though too much time in a slow lane offering little stimulation, can lead to a lost sense of closeness.

Enjoy being together but don't try to own each other! You need not desert your personal goals. The more at ease you are as individuals, the richer is your time together.

Learn when it is best to be stubbornly determined, and when to flow with a new course of action. Respond to your partner's need for change. Tune into the special ways each of you needs to feel loved. Share your experiences of art, music and sunrises. Worry not if each of you needs some time alone to pursue your own interests.

Your creative vitality will lead you to flow with the rhythm of your relationship. There is a sensual passion that naturally emanates in your liaison. Honor the need for individual expressions of work, beauty or self-actualization. Life will then reward you both--honest!

Sun in the Fifth House

It is easy to predict you can be true romantics in each other's eyes. Take ballroom dancing,

travel to adventurous places and indulge in an extravagant meal at a fancy restaurant. Keep your life enriched by entertaining choices that allow for mutual enjoyment. Self-expression is a given in a big way here. You might find yourselves reciting lines from a Shakespearean play to each other. The clown in each of you doesn't need much encouragement. The two of you are filled with a creative spirit. Find outlets to satisfy this gift. Wear the roles that suit you. There are many.

Each of you hates to lose. Self-confidence is always near. People like to be around your partnership as it lifts their spirits.

Share the spotlight. Your alliance is a lot more fun when each of you is happy. Each of you likes to be adored by the other. Give each other breathing room from time to time. A bruised ego can result if either of you feel too ignored.

The two of you must have felt passionate about each other from the get go. Your communication is lively. There is a direct way of dealing with issues that might even startle your friends.

You are just plain lucky! Your business investments can be fruitful. Instincts for following the right financial hunches are indicated. Don't go overboard in trying to impress others. You both are more natural and content when operating on your own terms. Your shared will power makes things happen.

You are at your best when cheering each other onward to success. A smile, hug and words of encouragement are paths to endearment.

The Moon

Countless song lyrics, poems and lofty dreams have been inspired through gazing at the Moon. The Moon's sign and house position represents the intimacy and feelings you share with each other. Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

Moon in Gemini

With your relationship lunarized through the sign Gemini, expect to change directions quickly. Intuitive flashes come standard within the landscape of your breezy subconscious instincts. You thrive on diversity. Your minds and emotions detest boredom. It is next to death. You both would likely prefer that no two consecutive days be exactly alike.

Your words and feelings trigger thought-provoking electricity in others. The world you share must contain fresh ideas. There is no time or room for stale concepts. People coming into your social sphere will need to talk and think fast to keep up with the two of you. It is entertaining to share your thoughts about friends, and even strangers that you encounter.

Your home is a learning center. It is probably loaded with books on many different subjects. The Internet may feed your hunger for staying abreast of new trends and innovative ideas. Sometimes you could feel the information highway was invented just for you. Each of you can value education.

Share your feelings with each other. Remember, your emotions need to be expressed as well as your intellect. Talk from the heart as well as the head. It will keep you close. Nervous energy

needs to be channeled productively. Encourage one another to say what is on your minds.

Living in a city or community that stimulates your minds will find you to be less restless. Groups and friends may utilize your relationship for networking. People can experience a mental awakening in associating with you.

Let your imaginations guide you to investigate new paths together. The two of you need to know that life will always stay exciting.

Moon in the Sixth House

The two of you need to know you can work together. Taking on projects helps you establish greater closeness. The two of you share the tenacity to finish what you start. Sharing the load when difficult challenges come along makes you love your partner. You tend to like well-organized people.

There is a tendency to care greatly about each other's health. You will probably encourage one another to exercise and watch your diet. Cooking and eating the right food might be your motto.

Your home life needs to follow a schedule in order for the two of you to feel relaxed. There are probably certain days you need to forget about keeping each room perfect. You can't help but desire a sense of order in your living situation. It allows you to remain calmer and think clearer. You need to be able to depend on one another to contribute equally in maintaining a place of residence.

Developing job skills could mean a lot to each of you. Encourage one another to keep improving their chances to get into the career of choice. There is a possibility you might even be able to operate a business together successfully.

What do you need to watch out for in your relationship? Criticism with a capital "C". Controlling a sarcastic tongue is a good policy. You will notice the personal habits of each other that you find irritating. Tread this territory sensitively. A taking care of business type of talk does better than excessive nagging. Perfection is a goal that is hard to hold onto. Try to reach the middle ground together that is reasonable.

Let your intuition guide you to look beyond your differences. Help each other go beyond self-doubt. Serving each other's highest goals makes being together more pleasurable.

The Ascendant

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

Ascendant in Sagittarius

People see the two of you as fun-loving and adventurous types. You are easy going and don't care too much for stressful activities. Buy you travel tickets and it probably feels like you are in heaven. Exchanging ideas with others is stimulating. You tend to energize others making your company pleasurable. Self-confidence is personified through the way you carry yourselves. The two of you are convincing when believing in what you are talking about. Discipline might not always be readily available. You both can be in the habit of seeking new horizons that offer expansive growth. Your positive attitudes make good luck a reality. Others may call upon the advisor or teacher in you.

The Part of Fortune

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck. Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

Part of Fortune in Capricorn

Rising to positions of power, or creating circumstances that give you a sense of being in control, allows you to feel more at ease. You can climb to high places together. The commitment you establish can be deep, and appear invincible. Career aspirations are probably important to your happiness. A willingness to be patient to realize the full completion of a strategy is within the framework of your relationship. You rejoice in each milestone. One or both of you cherish certain traditions. You both will be called upon to lead. It is here that your destiny can be smiled upon by good fortune.

Part of Fortune in the Second House

The steady creative power you manifest together can take you to fulfilling places. Your desire to accumulate wealth or possessions rests greatly upon your determination. The values you share are a rallying point for your commitment. There is magic in your lives when you seek greater meaning. You may show similar fondness for comfort and peace of mind. Accepting each other at face value makes being together very harmonious. Putting your resources in the same pot can make you a successful team. A flowing generosity will bring the universe to shower you with abundance.

Part Two: The Supporting Cast

Mercury

Are you curious about the way the two of you communicate? In this section are Mercury's sign and house placements, showing some of your favorite communication tendencies. Mercury is referred to as the winged messenger in mythology, a networker for the gods. This very mental heavenly body represents an important link between your minds. It shows how you interpret what the other is saying. Mercury is connected to Perception. Astrologers consider Mercury the ruler of the conscious mind.

Mercury in Aries

Your mental energies move fast and furious. Assertiveness is not a hidden tendency. Your perceptions can be sharp though your actions might not always be well timed. There is an impatience to make things happen immediately. The two of you like people able to get to the point fast! There may be a swift decisiveness exhibited.

You don't mince words when it comes to talking to each other. Your communication likely features a fast pace and is direct. One or both of you might sense that waiting too long to deal with a problem puts your nerves on edge. There is a desire to nip issues in the bud.

Putting your thoughts into action is an instinct. Try to reflect a little before embarking on major new challenges. It will be time saving to do so. You both need the individual freedom to express your leadership drives. An urge to satisfy your own unique curiosities about life is indicated. A perk in your being together is the stimulation of new thinking.

There will be times when you must just plain move through life spontaneously. It could be embarrassing to realize that with twenty-twenty hindsight you have the cart before the horse!

You need mental excitement to add spark to your partnership. New adventures keep your minds ready and alert.

Dull routines get you feeling down. You need to keep life interesting. Too many thoughts in the passing lane can lead to mental confusion. Slowing down the pace may be needed to keep you both on the same page. Listening does not come easy and will take practice.

Heated exchanges are bound to occur over sensitive topics. It's better when each of you gets a chance to talk; the exchange of insights and ideas deepens your connection.

Mercury in the Fourth House

Your minds are pulled to the depths of your innermost feelings. Sharing thoughts about home and family can be a regular event. Your perceptions have a way of getting each other to reveal your vulnerabilities. There is a radar-like intuitive way you can reach the deepest levels of your partner's mind. Mutual emotional support is a commodity you hope to receive from one another.

Communication may take a while to establish. Your emotions are way out in front of your ability to express yourselves in words. Intimacy is something you must trust. Don't force the closeness. It is more important that you both have enough time to process the effect you have on each other. You do make one another feel more secure about this relationship through talking.

The home is a subject you probably spend much time discussing. Keeping it organized helps. Your residence can be a busy place for meetings. You can get very involved in community activities. You need to live in a city or town that offers enough mental stimulation for each of you. Nervous tension is not welcome where you live. Both of you can be avid readers when alone. Your growing up years might be of interest to your partner.

Patience with each other's reasoning abilities is good to remember. Your problem-solving approaches are likely to travel on different highways. With practice you can learn how to work great together.

Hidden agendas! Don't make a habit of indulging in them. State your plans or goals as honestly as possible. Fatigue really fogs your mental objectivity. Deal with the major decisions when you are alert.

Encourage independent thinking and dependency will stay balanced. A feeling of joint decision-making is the way to your lover's heart.

Venus

Without Venus, life would be lonely and meaningless for all of us. The goddess of love guides our Social Awareness and search for Aesthetic Beauty. The Venus sign and house positions most directly point to your search for a sense of balance, peace, comfort, love and mutual admiration.

The harmony found in a shared outlook on practicality strengthens your bond. Giving one another the financial freedom to spend in the way you choose to do so is a wise policy. It increases your cooperation account. Each of you

wants to be consulted before a major purchase is made. You may prefer to have a nest egg. Where are your greatest needs for balance? You might grow too resistant to change. Tolerating some differences keeps the peace. A fear of not having enough money can cause you to restrict yourselves too much. Be sure to include fun events in your schedule. Mars

The ancients considered Mars the god of war. The warrior planet can translate into heated exchanges with each other. Mars arouses Passion in the form of sex, anger or a desire to forge ahead as a swash buckling couple. Mars is still the ruler of combat. It points to the primal competitive instincts embedded deep within each of us. In modern terms, this fiery red planet's sign and house placement are associated with assertion and acting on impulse.

Mars in Aquarius

The warrior in you is as inventive as unpredictable. You both are turned on by future goals. Impatience with the present is something you may need to watch. Fighting for the underdog and championing your favorite causes is predictable. People may accuse you of being rugged individualists. There is a rebellious spark that can entice you to challenge the politically correct institutions of the world. You may not like arguing with each other as it seldom produces a real winner. Letting each other blow off steam is smart. You then work well together.

You can enjoy moving fast through life. There is a great desire to live in the fast lane. Groups and organizations may not know what to do with you, but enjoy your outspoken truisms. You both can delight in shocking others into a new view of reality. Be careful though in trying this technique on each other--it's hard to kid a kidder!

You grow weary of routine and might have distaste for stability. You are wise in being careful when and where you display your love of being agents of change. Treat each other as equals and you will be long-term lovers.

Mars in the Third House

You accelerate each other's thought processes. There is a healthy appetite for communication. You seem almost invincible when it comes to convincing others to believe in your ideas. Exercise tact when pushing your desires in each other's faces. The thing that may get you the most angry is when you feel your partner is not listening. You likely know just what to say to get your partner's attention. If you put your foot in your mouth on a regular basis, you can learn, with practice, how to be more discreet.

Your perceptions hop higher than a kangaroo. You both like to change directions quickly. Give one another a signal before turning if you want to be followed. Excitement is probably preferred over the usual routines. Surprise pumps you with refreshing mental vigor.

Forgetting to follow through on promises can be irritating. Anger is not always easy to show. The nervous anxiety it causes makes you both uncomfortable. Getting your hostility out in some instances might make communication smoother in the long run. Neither of you likes to hold grudges anyway. You read each other's minds like an open book. Your eyes and facial expressions are a dead giveaway.

The two of you get motivated when pursuing new learning and greater options. There is a need for enthusiasm about your endeavors. When your spirits are on the same wavelength, life seems like a huge playground where your hearts have unlimited access to sing their potential.

Jupiter

The largest planet in the sky is Jupiter. This happy-go-lucky cosmic giant is more than twice the size of all the other planets put together. Jupiter spins on its axis with great enthusiasm, doing this faster than any other planet. Jupiter's sign and house denote themes related to learning, optimism, travel, philosophical beliefs, luck and generosity. Inspiration that flows between two people can be traced to our good-natured friend in the sky.

Jupiter in Virgo

You seek inspiration through putting your principles and highest values into practice. You look for sound reasoning in yourselves or in your closest acquaintances. The two of you might prefer to take few risks. Trying out already tested theories suits you better than exploring uncharted territory. You are picky about your morals. People probably need to exhibit behaviors that fit into your belief system in order for you to feel comfortable around them. You do respect individuals who are willing to work hard to make their beliefs come true.

Business instincts are everywhere to be found in your relationship. Your sense of knowing how to get a job done in the most efficient manner can impress others. You might not enjoy working with or for each other, as much as playing together. It is easy to fall into a trap of all work and no play. You must make time for both to keep the peace. There is a chance you will be comfortable going it alone, and meeting up at various places. You both want to see and do more than most. It may feel like a sacrifice to compromise your individual passions for the good of being together. You could create the best of both worlds. Having your partner in one, and your most unique goals in the other. There are mutual paths that can be of benefit to you as a couple. Some open communication can help you plot a course of action together.

Your value systems are more than likely quite compatible. A sense of humor keeps life between you relaxed. Your opinions can clash but don't necessarily interfere with the ecstasy you seek in this adventurous relationship.

Imagination is constantly pumping through your restless minds. You have a forceful, positive approach that can move problems out of your way. Don't let your judgment of each other grow unreasonable. Be fair. You can love the way your partner understands you no matter what you are going through.

Saturn

Astronomers say that if Saturn fell from the sky it is light enough to float on an ocean. Some people dread hearing about where Saturn is in their chart more than they do going to the dentist! The fortune tellers of old always painted this planet with "heavy" interpretations. They presented this planet as being a god of doom and gloom. In modern astrology, this motif denotes endurance and ambition. In mythology, Saturn was Chronos, the god of time, reflecting

the wisdom that can be learned from past experiences. You could say Saturn is a "Cosmic Chiropractor", showing adjustments needing to be made along life's way. There can be frustration in repeating the same mistakes. Saturn's sign and house themes are associated with Commitment and Reality-Testing. The two of you may find clues here about how you define your relationship roles. Career drive is a Saturn hallmark. Saturn shadows are fear, rigidity and a need to be compulsively controlling. There is no longevity without partners dealing with the symbolism of this particular celestial wanderer. With a lot of practice and patience the two of you can get good in making this side of your relationship flow--honest! Saturn can become more a god of Success!

Saturn in Aquarius

You are an interesting mix of traditional and unconventional. People may be surprised by the ease in which the two of you can move between these worlds. There is a friendship that permeates the essence of your relationship. Your commitment is strengthened by your determination to reach future goals. Wisdom teaches you how to support your partner's pet aims in life. Experience deepens your resolve to work through problems. Neither of you likes to waste time worrying. You would rather be busy thinking up a new plan.

Each of you can survive working in the mainstream. You both can exhibit an ingenuity that can make your skills highly valuable in the marketplace. There could be a tendency to be experimental in your work, if it satisfies the mental challenge you seek. It is predictable that you will influence the direction each will take to realize job potentials. If you stay patient with each other's ideas, it is more enjoyable to be together. Don't fear change. It is the unique frontiers that will probably stimulate you the most.

Your friends can be old and young. Professional groups might want you to act as their leader or advisor. You are a caring pair that will do almost anything to help those you love. Investments can prove profitable when you put your business know-how on the same table. Each of you can show an above average gift for locating the best deals. Property acquisitions are likely. Practicality may seem a natural counterpart of your being together.

Building a stable life together is a primary drive. Simplicity in your lifestyle is a probable desire. Sudden emotional outbursts are particularly upsetting. You like for your partner to give advance warning when plans need to be revised.

You are a couple that can show rugged determination to get what you want. Patience is in your approach to life. Helping each other fulfill potentials through providing material and emotional support is a route to greater closeness. Ownership is a serious subject. You might be

Uranus

Try to visualize a maverick planet orbiting on its side, whereas the other planets sit straight up and down. Uranus! This planet was discovered in the eighteenth century, sandwiched in between the American and French Revolutions. Is it any great wonder that this planet's sign and house occupations show our individuality and innovative ideas? Experimentation. Inventiveness. These are two more themes of this exciting and trend-setting entity. What is the down side to this rebel? A tendency in exhibiting a sarcastic tongue in your everyday communication. Launching sudden irresponsible actions will not make you feel like friends. Uranus can be the source of enjoying the refreshing insights you bring to your partnership. Treat each other as equals and you are likely responding to a positive tendency embedded in this planet's symbolism.

Part Three: Planetary Aspects

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.

The Nodes of the Moon are not planets. They are a celestial polarity offering clues to your connection on the soul level. Think of it as your own "psychic friends network." If this sounds too mystical or corny, just think of the Nodes as a shared frequency level in your partnership. It doesn't mean you get psychic flashes about each other. Much of this link between your minds is probably on a subconscious level. The Nodes usually play an active part in our closest relationships.
