Introduction

The Relocation Chart

A relocation chart is simply an ordinary natal horoscope moved to a different location. It's a chart cast for the same cosmic instant of birth, but looked at from another location, as if the birth happened there. The planets' sign positions all remain the same, but they will appear in different houses at different locations, thus altering their strengths and areas of influence. So, if you were born in New York, for instance, and then moved to Paris, your relocation chart would have any first house planets shifted about 90 degrees clockwise into the tenth house; tenth house planets would be shifted into the seventh house, and so on, thus giving your natal chart a whole new look for your Parisian adventures. In fact, if it turns out to be a significant improvement, you might even want to move there. Or, perhaps you might just want to visit when you are doing the kind of things that your Paris relocation chart favors -- work, play, health, creativity -- depending on your planets' relocated house positions.

The Relocation Map

Although any one relocation chart opens up new possibilities for you when you travel, if you put a lot of them together and trace them on a map you get a set of marked-out roads of opportunity that stretch around the world, each of which will add strength and emphasis to specific parts of your personality and potential. There is a geographical ribbon running many thousands of miles around the globe, every mile of which gives you Mars rising, adding to your energy and individual power whenever you are on it. Another gives you the Sun rising, another, the Moon, and so on. Around the other side of the earth are similar routes on which your planets are always exactly setting, on the cusp of the seventh house. Similarly, there are north-south pathways each 12,000 miles long where individual planets are on your Midheaven or IC if you go to them. Together, they make up an often-intersecting set of personal highways, a grid of 40 planetary lines that mark out your chart's strongest places for relocation, where one or more natal planets are on the angles.

And if that's not enough potential roads to travel on, there are a total of 180 global lines that depict where your 45 major planetary midpoints are on the angles, adding a subtle substructure to your planetary potential. Altogether, they depict your own personal World Wide Web of highways and byways that add special strengths to your chart and promise new heightened adventure and return for simply taking a trip. You'll find that there's hardly a place on the planet you can go without discovering a new slant on life, a new take on what you already have working inside you.

Windows Of Opportunity

Finally, as your personal progressions and transits move along and affect your natal chart, these same changes will be touching your relocation chart as well, but often quite differently. This will mean that certain parts of the world open up as unique windows of opportunity for a limited, but golden time. A look at these will tell you not only where to travel, but when is the optimum time to be there as well. Find out the best of where and when, and then book your ticket, with the stars on your side.

The Armchair Traveler

You don't have to actually show up at a strong relocation place to have it affect you. You may well find that areas where you have locality planets, midpoints, transits, or progressions on the angles have a way of waltzing into your life unannounced, or that you'll find yourself dealing with people who live there in a way that is described by your chart in that locality. In the era of electronic world travel, you may not need to go out of your door to find your different relocation charts working for you.

Angles in Signs

Ascendant in Gemini

You can accomplish with words things that might have required deeds elsewhere, and you can find yourself cleverer than you imagined if you give yourself room to speak. You can also be a particularly diplomatic presence, providing the go-between that brings conflicting sides to resolution with just the right suggestions.

Midheaven in Aquarius

You may be expected to play multiple roles here, and you can get the credit for it if you at least keep up the illusion. Given the chance, you'll get praise first and criticism later, so make good use of the first and the second won't happen. Keeping a diverse portfolio is the mainstay of your operation.

Natal Planets on Angles

Any planet on one of the angles (Ascendant, MC, Descendant, IC) of your relocation chart will be greatly strengthened when you are at the place of relocation, very much like if it were on the angles of your natal chart. If the Sun is on an angle, you'll have more confidence; if Mars is there you'll have more energy, and so on. Moreover, you don't have to actually go there to get the effect. Having a planet on a relocated angle will accentuate that place for you even if you are only doing business with people there over the phone. You have an accentuated quality to people in such places that you may not have elsewhere.

Natal Venus Ssq IC (Strong)

If they offer you something you don't want here, it's not meant to offend. They just thought they'd heard you liked it. Getting your desires and tastes spread abroad here can take some extra footwork, so don't be afraid to speak up until things are as you want them to be. You may have to repeat yourself.

Venus in First House

You can lead with your charm more than usual here, and the automatic good first impression is something valuable to take advantage of. Offering rewards will get you everything, and your inclination to put your best foot forward will stand you in good stead. Good things come to those who are looking good.

Natal Moon On AS (Strong)

You're more likely to wear your heart on your sleeve here, and when you're asked for an opinion, you'll spill out just how you feel until someone stops you. It's a great place to be if you're selling things, as you'll have a never-ending supply of reasons to buy, because what you'll really be selling is yourself. Sincerity comes easy here, but so does gullibility -- when your emotions are most fully in swing, they may outweigh your more considered forms of judgment. Premature conclusions based on instant reads can get you into situations where extraction may not come easy. The bottom line is that both the scenery and the people touch you in especially personal ways, hitting a chord that makes you resonate with whatever is going on, whatever that might be. Your inclination and ability to "go native" will be strong because you feel for the environmental and social rhythms here. Your challenge will be to maintain your inner personality and identity while swaying with the winds of change in the local surroundings. Although this may feel like home, remember in the beginning at least, it's home for those who already live there more than you, so learn their habits well before you start dressing in them. What you feel, in the end, comes from your heart, not what's going on around you.

Moon in Twelfth House

Blurting out your feelings can get you in trouble here, so if you have issues, raise them cautiously and in company you know you can trust. It's what you don't know that can hurt you -- both about yourself and the people you're dealing with. You needn't be paranoid, just properly cautious, maybe a little more than usual.

Natal Neptune Ssx DS (Strong)

You have imagination -- your own and others' -- going for you here, and playing parts may come quite naturally to you, without having to give up your own true identity. A sense of what people would like to see you as comes naturally, and so does your natural ability to actually fit the idealized mold.

Neptune in Sixth House

Rigorous routines may not have much of a chance here, because daily focus is often fogged with fanciful detours or hidden possibilities that derail the ordinary. Healthy solutions don't always have the most appeal, and appealing solutions can be healthier than it says in the book, so follow your feelings, as that's what will lead the way.

Natal Sun On IC (Medium)

This is an easy place to expand and make your mark, because for some reason you'll feel like you have a firm foundation from which you can stride out with confidence. Your communication with the surroundings will come from within, so you'll be able to get your meaning across even if you don't speak the language. Just smile and be positive and sincere and everyone will pretty much know what you mean and be receptive to your message. If you want to be at the center of things, this is a good place, where people will adopt you and make a circle of attention and hospitality around you based on your confidence and attitude. Just go and sit in the center of the square and you'll feel like you're at the center of things -- and if you choose to, you will be. It will be important to start from generalities here and then move on to specifics -- don't come on with a set agenda, just bring your personality and see what builds from there. You're a sunshine superman regardless of your gender, so let it play.

Sun in Third House

You can get your personality across to anybody and everybody here, and you'll feel like doing just that. You'll likely find a wide and receptive audience, though you may have to translate what you have to say slightly differently each time to say it. Every time you pick up the phone, it's someone different, so don't worry if you have to repeat yourself.

Natal Mercury Tri DS (Medium)

Words come more easily to you here, and you won't have to rephrase to get your message across. Just say what's on your mind and it will be perfectly clear to anyone who's listening. You don't have to shout, either -- a few appropriate comments take care of everything and grease your path accordingly.

Mercury in Third House

You can and should be big on communications here -- any media that can get your message across to any audience that will listen. Meetings, phone calls, even chance encounters on the street all expand your lexicon and your personal address book. Don't worry about wasting words, you've plenty to go around.

Natal Sun Tri DS (Medium)

You don't have to strain to throw your weight around here -- just let it flow from the heart and you'll seem like you've got it all going for you. What you look like supports who you really are inside, so all you have to do is be yourself and everything will fall into place. Play it like you like it.

Natal Venus Nov IC (Medium)

If they offer you something you don't want here, it's not meant to offend. They just thought they'd heard you liked it. Getting your desires and tastes spread abroad here can take some extra footwork, so don't be afraid to speak up until things are as you want them to be. You may have to repeat yourself.

Natal Jupiter Tri AS (Medium)

It's easier to come off like you really are ahead of the game here, simply by being optimistic and making the first step, any step. You roll right into the trends and probably look like you're leading them, and all without much effort. A positive attitude comes easy, and it eases your way anywhere you show up.

Jupiter in Ninth House

They say travel broadens the mind, and that surely applies here. Expect to expand your horizons and be willing to accept new ways of thinking and new sets of beliefs that work as well here as your own, perhaps better. When you accept that kind of growth, you also bring your own version along with you and appear as both friend and benefactor.

Natal Neptune Sqr MC (Mild)

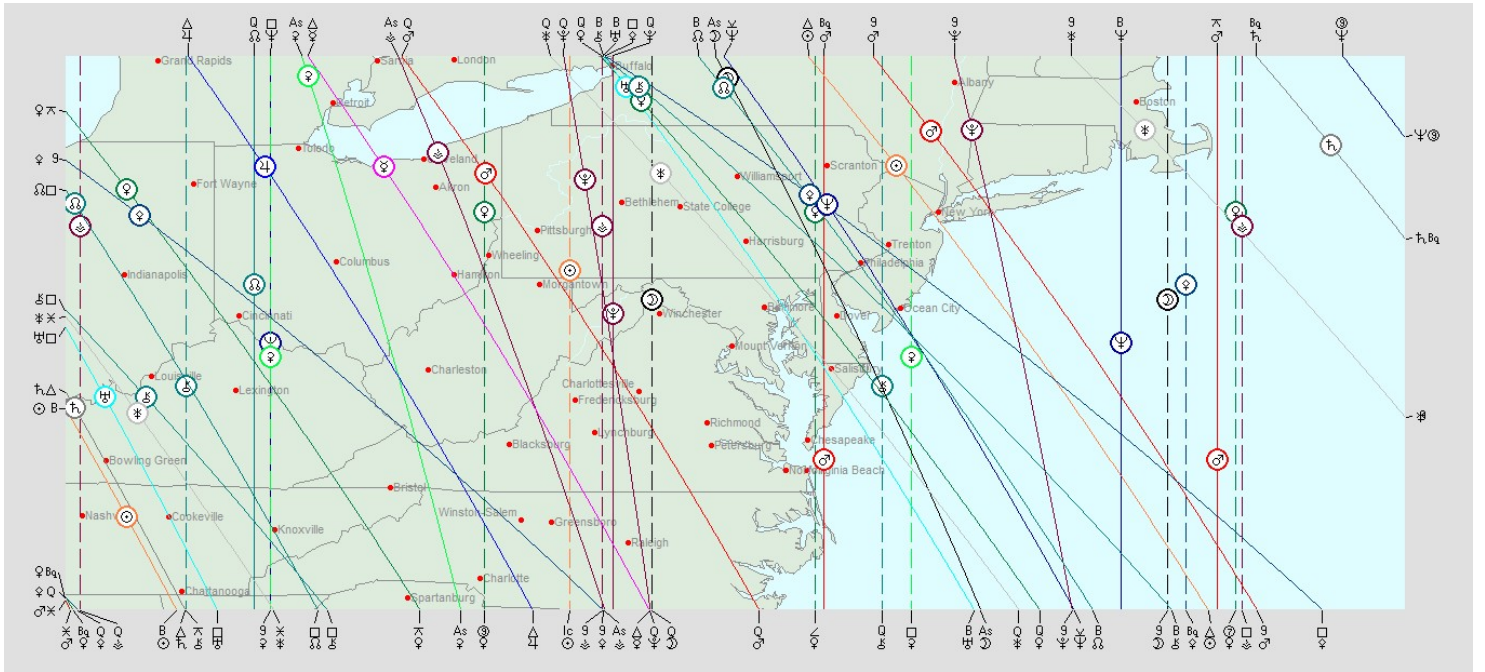

Whatever they're saying about you here, chances are it's misinformed, so don't hesitate to regularly clear the air with bracingly true clarifications. Misapprehensions spiral unless you cut through the cobwebs, so it's best to let the truth repeat itself rather than just handle things or try to cash in on temporary illusions.

Paran Latitude Lines

Venus-Pluto Latitude Line at 38N20'45"

There is an intensity lurking here that may quite overtake you from unexpected quarters. The qualities of hunger, desperation, and complete moral abandon can attach to the smallest of things, things ordinarily not worth fighting over. Imagine a Christmas sale with only one of the season's hottest toys left available -- and a hundred mothers rushing in the door to grasp for it. That's the kind of pointlessly focused need that can arise here, so watch what and whom you bid for, because you can get carried away and you'll regret it in the morning. But if you actually get just the right one, you'll be immolated in the results....

C*C*G Section

Transits to Angles

Location charts respond to transits very much like your natal chart. Although Jupiter, for instance, may not be transiting your natal Ascendant right now, it is transiting your relocated Ascendant somewhere, and that somewhere is likely where you'll easily get a lot of extra attention and enhanced personal prospects if you go there or start doing business with people there. The same goes for the rest of the planets, so you can travel to seek or to escape their transits at the place of your choice.

Progressions to Angles

Although you can't escape your natal progressions, you can go experience them someplace else, particularly where a favorable progressed planet relocates right on an angle and thus gets extra emphasis. As with transits, your progressed relocation paths will tell you where it's happening according to the nature of each planet. Being that they are progressions rather than transits, the effect will be more internal than external, but noticeable all the same.

C*C*G Planets on Angles

Any planet on one of the angles (Ascendant, MC, Descendant, IC) of your relocation chart will be greatly strengthened when you are at the place of relocation, very much like if it were on the angles of your natal chart. If the Sun is on an angle, you'll have more confidence; if Mars is there you'll have more energy, and so on. Moreover, you don't have to actually go there to get the effect. Having a planet on a relocated angle will accentuate that place for you even if you are only doing business with people there over the phone. You have an accentuated quality to people in such places that you may not have elsewhere.

Progressed Venus Sqr DS (Strong)

You can't get what you want here this year if you're telling people you want something else. Getting your needs sorted out and then projecting them accurately is the challenge. The trick is -- if you look too desirous, you won't be desirable. And, if it looks like you don't care, nobody else will. The solution lies between the two.

Progressed Mercury Nov DS (Strong)

You may catch yourself giving mixed messages this year, especially as it relates to your body language and gestures, so check your mirror and your video cam before you give a speech to the locals. It's not that you don't know what you mean to say, it's just that the point gets lost in the way you're laying it out, so work on your script and direction to iron out the kinks.

Transit Uranus Ssq AS (Strong)

The ride can be bumpy here for a year or two at least, as you may alternately be seen as leading the pack or going against the grain, with not much compromise in the middle. The answer is to be as steady as you can yourself so you come out the other side saying I told you so, not I wonder what just happened.

Progressed Mars Nov AS (Strong)

You're in a several-year period of personal wastefulness here that saps your resources because it's hard to focus your energies. False starts, detours, and general timing problems need to be addressed so that you can get the mileage you naturally should. When in doubt, just wait until you're sure you really have to make your move.

Transit Saturn Sxt MC (Strong)

There's a year or so of support from the more conservative parts of this environment coming your way, so if you want to maintain your reputation, don't rock the boat too much, or don't seem to be. You are cementing your base, so to speak, so smilingly accept praise from unlikely quarters, because you'll use it later.

Progressed Sun Sxt DS (Strong)

Stepping forward with confidence here comes easily for at least a year or so, as your self-image and your actual appearance link up nicely and you don't need extra makeup to look like you're in tune with yourself. You can concentrate on making accomplishments, as the inner wherewithal needs no attention.

Transit Pluto Ssx MC (Strong)

You've got a rep here of being able to pull people through impossible situations, even if you've never actually done that. That can be a challenge, sometimes, but it's the situation that actually does the work while you ride on top of it, so why not take some of the credit and add it to your resume for a few years?

Progressed Moon On AS (Medium)

You're coming out into the daylight here, after a couple of years of being more inclined to lay low and stay behind the scenes. Emotionally, you're ready for prime time here, so it's a good place to get out there and interact, let your feelings be known. You may not feel the same where you are now, but go here and see if it happens.

Transit Uranus Nov AS (Medium)

The ride can be bumpy here for a year or two at least, as you may alternately be seen as leading the pack or going against the grain, with not much compromise in the middle. The answer is to be as steady as you can yourself so you come out the other side saying I told you so, not I wonder what just happened.

Progressed Mercury Ssq DS (Medium)

You may catch yourself giving mixed messages this year, especially as it relates to your body language and gestures, so check your mirror and your video cam before you give a speech to the locals. It's not that you don't know what you mean to say, it's just that the point gets lost in the way you're laying it out, so work on your script and direction to iron out the kinks.

Transit Neptune Sqr AS (Medium)

You may find that your image doesn't always slip easily into the current local fantasy right now, and as a result you may be seen as an outsider or an interloper. It's about how you physically present yourself, and there's little to be done except to demonstrate that you can't judge a book by its cover.

Progressed Mars Ssq AS (Medium)

You're in a several-year period of personal wastefulness here that saps your resources because it's hard to focus your energies. False starts, detours, and general timing problems need to be addressed so that you can get the mileage you naturally should. When in doubt, just wait until you're sure you really have to make your move.

Transit Jupiter Sqr AS (Medium)

Because you may find your attentions drawn to developing affairs on the home and career front this year, you may find some difficulty focusing on yourself alone here. In part that's because it's not about you right now, and you may need to find ways to personally get out of the way and become a part of the solution and not the problem.

Transit Saturn On DS (Mild)

This might not be the place to go right now, unless you love pressure and hard work. That doesn't mean you'll get work here, perhaps the opposite, but you'll be expected to do double duty in any case. If you want to look older, it's the place to be, as you'll appear a bit more serious and traditional. Expect at least a year of this here.

Progressed Mars Ssx AS (Mild)

You're in a several-year period of heightened effectiveness and strength here, possibly without being really aware of it. Just count up your recent daily progress, however, and you'll notice the difference compared to previous years. It's derived from getting into the rhythm of the place and thus wasting no energy.

Progressed Mercury Ssx DS (Mild)

You'll feel very on-message here this year, but without having to make a big deal about it. Words just flow more smoothly out of your mouth and your brain is naturally in gear without having to pump the clutch. Body language does a lot to get the point across, and you may not even know it's happening unless you catch yourself on video.
