Introduction

Grant Lewi (1902 - 1951) is a legendary figure among twentieth century astrologers. He was a writer and editor for the two largest astrological magazines of the time. His two books, *Heaven Knows What* and *Astrology for the Millions*, were the first astrological books to become best sellers and even today, over fifty years later, they remain among the best introductions to the subject of astrology.

The astrological interpretations found in *Heaven Knows What* and *Astrology for the Millions* were unique, fresh, and simple. Llewellyn George, the prominent astrologer of the time, remarked that Lewi's interpretations must be intuitive because they were unlike any that had been written before him. Today these interpretations remain energetic and forceful and, though some references are now dated, Lewi's text still provides some of the clearest insights found anywhere in the literature of astrology.

Lewi was determined to make astrology more accessible to the average person, but while popularizing the subject he never watered it down or reduced it to the level found in "sun sign" astrology. Writing before computers were available, he made his books function as the computer, providing the reader with tables to generate their own charts or horoscopes and then linking his interpretations to the information found there. Lewi would have made good use of the computer, so much in his books seem to anticipate them. In his writing he tried to emulate the interpretation process by using a computerless version of artificial intelligence: the meaning of a planet in a sign doesn't stand alone but is modified by the other aspects found in your chart. Many of his comments depend on a combination of factors and for this reason you will sometimes find that he has something different to say about an aspect in your chart than he does for the same aspect in your friend's chart.

This report calculates your chart for you and then collects all of Lewi's comments strictly according to the astrological factors found there. The text contained here is valid even for those who don't know their time of birth - Lewi focused on those factors that are in effect throughout the birthday. The only exception to this is the case of the Moon which can move between 12 and 14 degrees in a day, so if the positions were calculated for noon then the Moon could be as much as 6 or 7 degrees different and possibly even change signs. If you don't know your time and the texts that involve the Moon seem unlikely, you may wish to compare reports done for the beginning and the end of the day.

At all times, Lewi's aim has been to show how astrology can be used as an aid in living a more satisfying and fulfilling life. Astrology offers indications and pointers - and sometimes insights - to situations that you find in life. It doesn't tell you what to do about them, but if it offers you a better understanding of the situation, then you are in a better position to decide for yourself what to do. To quote Grant Lewi:

"It is not limitations that eats out the heart, but inaction, the knowledge of powers not used, the sense of having failed to develop to the utmost. The overcoming of fate is not the overcoming of

limitations: that is impossible. It is the exercise of free will, the assertion of the full self, expanding to its utmost with the tools at hand, in the circumstances that are set. Astrology, through the interpretation of the horoscope, assists men to the achievement of their maximum by indicating to them the lines along which their will may be most progressively applied, the goals to be sought, and the individual means by which each one may arrive at the outermost boundaries of his world."

Horoscope of Birth

Your horoscope of birth is the blueprint of your personality and character as indicated by the position of the Sun, the Moon and the eight planets on the date of your birth. This section is devoted to each of these members of the solar system.

The planets are the antennae and arms of the horoscope, of which the body and soul are the Sun and Moon. No planet will ever cause you to act counter to the testimony of the Sun and Moon in their combined influence on you. Remember this when you proceed with the following readings. All planetary vibration must be considered in light of the basic solar-lunar readings, for these are your character, your basic nature, which the planets will help or hinder but cannot materially change.

According to the sign position of your Sun, one planet will be more important than the others and should probably be read first. Your Sun is in Virgo and your dominant planet is Mercury. Not only the action of this ruling planet will be very important in your life, but also the attribute over which it rules. Thus Gemini, ruled by Mercury, lives a great deal in the senses; Libra, ruled by Venus, responds most readily to emotional stimuli; and so on. Study your ruler carefully.

Remember in all planetary readings that they work within the pattern of your solar-lunar nature; never against it. The synthesis of your horoscope from the following series of paragraphs to a working unit depends on your keeping this in mind, which will enable you to weld all the readings into a unified and significant whole.

Sun in Virgo and Moon in Sagittarius

There is a wide cleavage between your intellectual and your emotional natures; you are capable of doing things you disapprove of, under the spell of adventure, romance, excitement. You are a loyal, honorable, warm-hearted, and reasonable person. But you have difficulty in getting your ideas across, and a feeling that you are misunderstood arises, perhaps because you don't understand yourself well enough to make yourself clear. You tend to think in large symbols that don't bear much relationship with your everyday life, and to idealize what are really very worldly matters.

You are philosophic and somewhat introspective, but instead of looking inside yourself to find what is there, you look inside with a preconceived notion of what you ought to find or would like to find. You are sentimental rather than romantic; you fall in love with ideas, or with an ideal of love, rather than with an individual; and you tend to be baffled, frustrated, and to feel yourself cheated when the Beloved Object fails to live up to your ideal. You can daydream your life away, or you

can take your ideals and your philosophies and combine them with your practical analytical nature to produce something creatively. You can be a fair business person when you have overcome a tendency to be too philosophic and idealistic, and have learned to make your vision practical in terms of the earth as you find it.

Intellectually, you are interested in broad, general subjects - religion, philosophy, poetry, music, perhaps metaphysics - and you are capable of tracking a subject to its lair and making it completely yours. You have both imagination and patience, invaluable gifts for either the student or the artist. You love travel, and if you get lots of it, it will absorb your restlessness and enable you to pin yourself down to some important artistic or intellectual task. In business you will be better on the book, managerial, or fiscal side, than in buying, selling, or executive work.

Luck in life is increased. Strong practical bent and your business instinct is good. You are an occultist with a very quick mind, but also with emotional and nerve difficulties. The nerves need strict attention and with your Sun conjunct Uranus and Sun conjunct Mars this is especially true.

Sun

The Sun indicates the appearance you will present before the world and the psychological bias which will dominate your actions. What you seem, and why, are told in the reading for your Sun. In many ways the Sun is the dominant force in your horoscope and in your life. Other influences, especially that of the Moon, may modify the Sun's influence, but nothing will cause you to depart very far from the basic solar pattern. For this reason a whole literature and a whole business have grown up around Sun-sign astrology; and many people exist who think there is nothing more to the horoscope than knowing what "sign you were born in" and what the Sun in that sign means. This is a mistake, as you will discover when you have read the influence of the other bodies. But throughout your reading, keep in mind always the basic influence of the Sun, and remember that all other influences must be interpreted in terms of it, especially in so far as other influences play a visible role in your life. You may think, dream, imagine, hope to be a thousand things, according to your Moon and your other planets, but the Sun is what you are, and to be your best self in terms of your Sun is to cause your energies to work along the path in which they will have maximum help from planetary vibrations.

Sun in Virgo

"Three things are to be looked to in a building: that it stand on the right spot, that it be securely founded, that it be successfully executed."

*Johann Wolfgang von Goethe, born in Virgo,
August 18, 1749.*

"The happiness of man consists in life. And life is in labor... The vocation of every man and woman is to serve other people."

Count Tolstoy, born in Virgo, August 28, 1828.

To discover the motivating drive in the life of any Virgoan, it is necessary to look at the work he is doing; for so deep is Virgo's utilitarian sense that he identifies himself with his work and is quite willing to lose himself in it. His personality and character development depend, to

a peculiar extent, on the nature of the work he has set himself, for he will be as big or as small as his job or mission. He is capable of becoming single-tracked, absorbed and narrow over whatever he happens to fall into. He is capable of making work his god, and thus going high and far in a chosen direction. He is capable of expanding his spirit by selecting a career somehow related to service. He is capable of the extremes of self-denial if he thinks his work calls him to that. And he is also capable of feeling that his work requires self-immolation, self-limitation and self-sacrifice to an inordinate degree. However you figure it, the puzzle of his nature will be solved if you find his attitude toward the hub of his universe, his work. So true is this that when you run across an unemployed Virgoan you have the most woebegone and incomplete personality in the world. In losing his work, Virgo loses his whole reason for being. In its best forms, this makes for efficiency and brilliance in the performance of duty, and it may take the sense of duty into very humane realms of selflessness. In its worst form, it makes for narrowness of outlook, great inability to talk anything but shop, lack of interest in anything not related to work. So engrossed does Virgo become in his job (talk, mission, message or whatever he calls it) that he sometimes seems intent on destroying all the rest of the personality that doesn't belong to his work. He loses interest in extracurricular activities, so that his life is one long routine of keeping the nose to the grindstone, and he is unhappy when for some reason or other the grindstone stops or his nose gets away from it. To fix the aim high, to select a job that requires diverse talents and wide knowledge, is Virgo's best bet for a well-rounded life. If he has the misfortune to be able to find progress and security in a rut, he is likely to see only the progress and not realize it is a rut. He needs activities, companions, fun, diversions, hobbies to broaden his life, and should seek these along constructive lines lest his overtaxed body and brain force him to seek them in undesirable forms of escapism, brooding and introversion.

Following are the aspects to your Sun. In a general way, the trines and sextiles to your Sun make ease, contentment, happiness, luck; while squares and oppositions give you energy, drive, success, ambition. Conjunctions bring both energy and luck, and are translatable in terms of whether the Sun receives squares or trines, along with the conjunction. Similarly, squares and trines to the Sun together bring success through work and perseverance, and luck develops in proportion to the work done and the effort extended.

Sun Conjunct Mars Orb: 06°55'

Little boys and girls with this aspect are generally known as "fresh kids" and more likely than not they never get over it. You are marked by a certain audacity - you speak out your mind at the drop of a hat - and not very tactfully either. You don't know the meaning of the word fear, either in a physical or a mental sense. You will attack a roaring lion bare-handed, or endeavor to debate a legal point with a Supreme Court justice - all with the same aggressive assurance in your own ability. This is admirable, but it isn't always good sense. You come in for a good many trimmings both verbal and otherwise, through an unwise selection of opponents, and throughout life you have to be careful of trying to push over stone walls with your head. You're the kid who wouldn't holler Uncle no matter how your arm was being twisted. In any case, you will have to curb aggressiveness which can range from mere cockiness to downright ego mania. You have abundant energies both mental and physical. It is too bad if your abilities are lost through antagonism, or your powers dissipated in temper. Self-control should be your constant aim in both personal and business matters and you should remember when you are tempted to do or say something bold that "fools

rush in where angels fear to tread." Your vigorous personality and quick mind will carry you far when you have learned to overcome the quirks of your own nature. In a woman's horoscope this generally brings trouble through men. If you marry a girl with this aspect prepare to let her rule the roost.

Sun Sextile Saturn Orb: 01°37'

You are lucky, coming of good stock and being born into a favorable environment. Elders have done a good deal for you, and no matter how poor your parents may have been or how rich, they have seen to it that responsibility was removed from you as much as possible and that the hardships of life did not touch you. You have a good sound body and mind. You are serious without being dejected or depressed, and are capable of concentrated effort. Look out, there is a tendency to relaxation and absence of direction and purpose - luck helps you out, but you don't seize or create opportunities. The tendency of this aspect is to smugness and self-satisfaction, pride and relaxation of ambition and energies, so that, despite a sound mind in a sound body, you don't seem to get very far. You have lots of luck with very little effort; maximum return for minimum work, and material security.

Sun Conjunct Uranus Orb: 04°52'

A continuous nervous tension pervades you which you have to fight down and bring in line with the needs of your life. You have a quick sharp mind, highly intellectual if trained, but inclining to the sensational if left untrained, and in any case erratic, high-strung, and worrisome. Abstractions appeal to you more than realities; the intellectual more than the material. The result is that you are baffled, confused, and made nervous when the realistic world demands attention. You should practice relaxation and resist an impulse to get along without sleep, which you need if you are going to keep your nerves in shape. Your mind has a way of working overtime even when you are asleep - with the result that this position often accompanies attacks of insomnia. The nervous energy is given constructive bent, and through aptness, perceptivity, and perseverance you will go far along intellectual or creative lines. You are not cut out for business, though your versatility will permit you to do anything. You have a kind of pride in emulating Goethe's Universal Man, to whom no field was closed and who could master any branch of knowledge or endeavor. Health is an important consideration in your life, and you should take especial care that you aren't made ill by nervousness, worry, or by one of the so-called neurotic ailments. Your emotional nature, after having been pretty turbulent, settles down to a sort of cold, dispassionate, and analytical acceptance of human relations as you have found or created them. Impersonality and objectivity will show you the way to success and contentment - and you are well equipped to know the significance of the ideal state in which (to quote Walter Lippmann) "The intellect has become a passion, and the passions are cold." You discover interest in the occult, from which you could make a successful career or a stimulating hobby.

Sun Sextile Neptune Orb: 00°28'

Your emotional and intellectual sides are nicely blended and give you a good deal of quiet charm and magnetism. Your intuitions are strong, and your critical faculties are aided by innate good taste. You are likely to have the wish to create artistically, but this aspect alone will not bring the power, though if other aspects to the Sun, Moon, Venus, and Mercury show creative powers,

this will materially aid their expression and help to bring recognition. You have in any case a genuine appreciation for beauty, poetry, and music and will be found among the patrons of art galleries, operas, concerts, and the theater. This aspect also supports the health and aids the general material welfare.

Sun Opposite Pluto Orb: 08°47'

Power is important to you but, without introspection, this power is likely to be a "bluff," a show you put on to impress others. With introspection, you can use your clear perspective on your motivations to give a solid sense of purpose and determination to everything you do. Hidden resentments can trip up even your most well-intentioned actions, so self-knowledge is essential for success. Winning is important to you, so you could become a master of tricks and manipulation. The lesson is the proper application of power, so that success comes through the use of your magnetism and inner strength rather than through the use of dirty tricks. Try to be for things as intensely as you are against them.

Moon

While the Sun's position by sign determines what motives and urges dominate your life as it meets the naked eye, the sign position of the Moon tells the desire of your heart which may or may not be expressed or realized in your life. When you "know what you mean but you can't say it," it is your Moon that knows it and your Sun that can't say it. "Thoughts that do often lie too deep for tears" are the thoughts of your Moon's nature. The wordless ecstasy, the mute sorrow, the secret dream, the esoteric picture of yourself that you can't get across to the world, or which the world doesn't comprehend or value - these are the products of the Moon in your horoscope. When you are misunderstood, it is your Moon nature, expressed imperfectly through the Sun sign, that you feel is betrayed. When you know what you ought to do, but can't find the right way to do it, it is your Moon that knows and your Sun that refuses to react in harmony. Also, when you "don't know why I said that," it was your Moon expressing despite your Sun (if you are innerly satisfied with the involuntary speech), or the Sun expressing against the will of the Moon (if you are displeased with what has slipped out). Things you know without thought - intuitions, hunches, instincts - are the products of the Moon. Modes of expression that you feel are truly your deepest self belong to the Moon: art, letters, creative work of any kind; sometimes love; sometimes business. Whatever you feel is most deeply yourself, whether or not you are able to do anything about it in the outer world, is the product of your Moon and of the sign your Moon occupies at birth.

Moon in Sagittarius

Whatever mundane tasks your life may be occupied with, your spirit will range the earth and the universe, adventuring in the high hills and among the stars themselves. And to whatever task you bring your talents, you will touch it with a universality of approach; for the effort of your soul is to identify itself with large and broad concepts, and you will do it from whatever base your feet of clay must rest in. You are acutely aware of the limitations of the flesh, of the height of your desires, and of the "wide gulf that exists between intention and performance." In its worst form you will dedicate your life to making the paving bricks of hell: good intentions; and get no further. You always "mean well," and when you don't succeed, it is because your goal has been too lofty. "Not

failure, but low aim is crime": no one understands this better than you. When you also understand that setting an unattainable goal is one of the means of escaping responsibility, you will be on the highroad to self-knowledge and therefore success. You must make your goal high, but possible of achievement; and you must learn to gear your methods to the tools that you can lay your hands on. Your soaring spirit is all too likely to ignore realities, to consider itself above good and evil, above the dust of earthly competition, secure in the mansions of the blessed to which you don't have to earn the key. Or you can go to the other extreme, envision high things, and so despair of achievement. You must take your picture of yourself as a broad and deep person, and paint it in earthly oils on a practical canvas. When you have learned the technique of life-as-it-is, you will be able to make your image of yourself stand forth in the light and color of success for all to see as clearly as you see it yourself.

Following are the aspects to your Moon. Look to the trines and sextiles to give you charm and clear-thinking; and to the squares and oppositions to provide you with concentration and driving force.

Moon Square Mercury Orb: 00°54'

You are talkative, expressive, witty. You may not have a trained mind, but this doesn't keep you from occupying yourself with mental pursuits, either as a hobby or as a mode of gaining a livelihood. What you lack in persistence you make up in glibness and facility. Only in extraordinary instances will this accompany the artistically creative ability of the poet or dramatist; but it will lead you into some writing or speaking occupation - secretarial, advertising, public speaking such as radio, salesmanship, etc. - anything where wit, cleverness, and knowing all the answers is an asset. You have a tendency to talk too much. You are not logical and have to make a conscious and serious effort to keep to the main track of the discussion. Mental training is what you need - strict schooling, which likely as not you ran away from when you were very young. You are likely to skim over the surface of things mental and get by on your wits rather than by intense application. But with your cleverness, wit, and adaptability you will get by!

Moon Square Venus Orb: 05°30'

This aspect doesn't make you very sociable and is likely to impair popularity by making you scornful of the things that have to be done to achieve it. Your attitude is that you just won't be bothered - if they want you, let them come for you. You have to learn to go out of your way more for people. The truth of the matter is that you are sensitive, have a sort of inferiority complex about your popularity, and dread the idea of pushing yourself forward, with the result that periodically, through sheer discouragement, you push yourself in the wrong way and at the wrong time. Look around you at the people who are well liked and try to take a leaf from their book. There is great sorrow through social and romantic matters. This is a difficult aspect for material matters, for you spend money foolishly, and have to cultivate good business sense. You are a real spendthrift at heart; getting rid of money amounts to a genius with you. You are emotionally temperamental and can weep buckets when you are hurt, or when you realize you've hurt someone else; for you are gentle, and wouldn't willfully hurt anyone. But for all that, you do.

Moon Trine Mars Orb: 03°12'

You have a vigorous mind - sharp, quick, satiric - and a clipped manner of speech. You have an aggressive spirit which may or may not be manifest in your actions, but which causes your plans to soar and your ideas to expand. You have good control over your passions, which are strong; and use your anger to good purpose. You are a dangerous enemy because your fires are leashed and directed to go to the mark. In a man's horoscope this gives an aggressive wife, possibly a shrew, who none the less is good for him, stimulating him to action at the same time that she makes him mad.

Moon Trine Jupiter Orb: 08°49'

You are idealistic, humanitarian, and expansive in your outlook, animated by genuine charity, and probably in a position to make it practical. You are cheerful, optimistic, good-humored, and tactful. Courtesy is innate in you - one of nature's gentlefolk. You have excellent family connections especially on your mother's side, and probably some financial help from them in gifts or legacies. Necessity has never taught you to be careful of money, which you more or less take for granted. If put to it, your earning powers are good, for friends put you in the way of earning. Character is your strong point: you have a keen sense of right and wrong. Your ideas run along conventional lines; you belong to the conservative, right-wing, pillar-of-society group, believing in noblesse oblige rather than in socialism. You are devotional and probably religious in an orthodox sense, but the pillar of your religion is the god in you - that is, character - rather than metaphysics and dogma.

Moon Sextile Pluto Orb: 01°20'

Quality, not quantity, is the hallmark of your emotional make-up. You like having a few close friends rather than spreading your feelings and loyalties thinly over a wide variety of people. You are apt to be fair in your judgments of others, evaluating inner qualities rather than superficial traits. Warmth, loyalty and devotion mark your emotional reactions. You are protective of loved ones without smothering them.

Mercury

Mercury is the sense-impression antennae of your horoscope. His position by sign indicates your reactions to sights, sounds, odors, tastes and touch impressions, affording a key to the attitude you have toward the physical world around you. Mercury is the messenger through which your physical body and brain (the Sun) and your inner nature (the Moon) are kept in contact with the outer world, which will appear to you according to the index of Mercury's position by sign in the horoscope.

Mercury in Virgo

Sense impressions never reach you till they have been interpreted. What you see, hear, smell, taste and feel is swiftly given significance before it arrives at the reacting center of the brain. You never see just a chair; you see a beautiful chair, an old chair, a charming chair, a chair that looks

comfortable or uncomfortable. You never hear just a noise; before you have heard it, it has been labeled pleasant or raucous or sweet or whatever. Your senses take the impression, hold it for ransom, and say to the brain, "Name it and you can have it." Thus you tend to card-index and catalogue every sense experience that comes to you. This leads to boredom, because pretty soon everything drops into its own niche and there is nothing new under the sun. Your pleasure in the physical world thus tends to diminish as life wears on, and through too much intellectualizing you can lose the zest for life. To get it back, try to regard things for their own sake. Remember that "a rose by any other name would smell as sweet" and that you get more fun out of a kiss if you don't think of it as a deception of Nature to encourage reproduction. Exorcise the demon of words from the temple of nature, and in the name of simple animal enjoyment, throw away the dictionary!

Mercury Conjunct Venus Orb: 04°36'

This aspect gives perhaps the most idealistic mental outlook possible. It shows strong leanings to the artistic and beautiful things of life. And with your Sun conjunct Mars and Sun conjunct Uranus these tendencies may become creative activity. You will have friends among clever and intellectual people. You will no doubt marry someone from this group, for your affections are much bound up in your opinion of the loved one's mentality. You have a good deal of charm of manner, wit, and gayety to your speech, and probably have a very pleasant speaking (and perhaps also singing) voice. You don't shout even when you're angry, and you have a persuasive manner that wins people over. This is therefore good for salesmanship or the professions where personal contacts are of paramount importance.

Venus

Venus is the emotional antenna of your horoscope. Through Venus, impressions come to you from the outer world because of which you feel and react emotionally. The position of Venus by sign at the time of your birth gives the key to your attitude toward these emotional experiences. As Mercury is the messenger linking sense impressions (sight, smell, etc.) to the basic nature of your Sun and Moon, so Venus is the messenger linking emotional impressions.

Venus in Libra

Your emotions are simple, direct, crystal clear. You are one of the young and pure in heart. The difficulties of life don't destroy your faith in the beauty of love, and since this is the sort of faith that vindicates itself, you are likely to find more genuine happiness in life than most. You are easily hurt, but you aren't touchy about it; you can't hold a grudge, or even condemn those who hurt you. You have a knack for thinking the best of people who repay you by thinking the best of you. The directness of your response to social relations, the genuineness of your affections, which you express with a combination of sincerity and impersonality - these endear you to many, make you a sought-after companion and guest and a charming host or hostess. You can safely allow emotional experience to be the breath of your life because when it is filtered through your clarifying responses it is a pure, sweet and exhilarating air.

Venus Square Saturn Orb: 06°13'

With respect to financial and economic conditions this does not indicate inheritance, in fact takes it away. Even if you were born into a family of wealth, it is likely to disappear before it gets to you or to be less than you had thought it would be. You receive little help from your parents and should not live around them any longer than you can help. You do best when you are on your own. Work for and live among strangers. You are careful of money but never seem to have enough. You should make a budget and stick to it. You have good business sense of a temperamental sort. You don't plan things out too well, but your instincts are pretty good because conservative. On the other hand, you are capable of scrimping for a long time and then spending your savings foolishly. You're the fellow Benjamin Franklin was aiming at when he wrote, "Never buy what you do not need because it is cheap." You have a fear and dread of poverty which may not be at all justified, but which you should guard against by always keeping something laid up for a rainy day. Property rights are sacred to you, and you love to own things, especially land and your own house. You will make no end of sacrifices to have a place of your own.

Mars

Mars is the energy principle in the horoscope. His position by sign indicates the channels into which energy will naturally flow, and the uses to which energy will most easily be directed. It is the planet through which the activities of the Sun and the desires of the Moon express in action - through which your body and your mind react to the sense impressions of Mercury and the emotional impressions of Venus. Mars is in the same sign as your Sun, this gives abundant energy, sometimes misdirected in temper, temperament and quarrels.

Mars in Virgo

Your energies are directed to system, or, in the negative manifestation, to no-system. "When it's good it's very very good, and when it's bad, it's horrid." One way or another, your effort is related to the order of your life. You will be the most systematic, logical, orderly, precise person in the world. Or else you will live from hand to mouth, your rooms in disorder, in constant rebellion against putting things where they belong. To get anywhere with this position of Mars you must learn how to accept the details of life, to take them for granted, so as to release your excellent mental energies into progressive channels. Until you have put your house in order, there is no place for you in the outer world. Once you have achieved order, you must progress to the point where you take it for granted; because to spend all your time dusting and straightening up is as wasteful as to spend all your time looking for things. Master detail, forget it, and then let your cleverness - of which you have plenty! - go to work on more essential things. The danger of this position is narrowness of effort through inability to see the forest for the trees; its great virtue can be mastery of detail, and the ability to bring large ventures into being from small, sound beginnings.

Mars Sextile Saturn Orb: 08°31'

You are a builder, willing to start at the bottom of a career and work your way deliberately to the top. There's nothing flimsy about the structure you build. This may make you an actual architect, or it may make you figuratively an architect of your own fate, laying your plans far in

advance, and working soundly for their accomplishment. You have an excellent balance of boldness and reticence, aggressiveness and tact. You know when to fight and when to run away, when to push your affairs and when to let them bide their time. Your great asset is a sense of balance and proportion. Your judgment is excellent, and you always know where you are going and how each brick, however small, is going to fit into the eventual product. Your driving force is terrific and always well aimed.

This is one of the best of all aspects (except those to the Sun and Moon) for self-reliance, progress, and sound success, the extent and nature of which will depend on other indications. But as insurance that your energies will find constructive and progressive outlet, you wouldn't want anything better than this.

Mars Sextile Neptune Orb: 07°22'

You have marked personal magnetism. Opportunities open up to you readily. You have a somewhat mystical, spiritual, or religious nature - a degree of superstition, and a belief in your internal powers. This frequently accompanies belief in Christian Science, Unity, or cults that deal in mind power. It isn't a very important aspect in itself but it lends color to your personality and sharpens your aesthetic and artistic senses. You control people by charming them. A mildly hypnotic power of which you may not be conscious assists all human relationships. You rely a good deal on hunches, especially about people. 'If this aspect is accompanied by strong and reasonable mental tendencies you may not even be conscious of its action, but rest assured it is responsible for the quickness of your insight, reasoning powers, and general mental astuteness. It eases the course of emotional matters somewhat; it is a passive rather than an active ally to accomplishment in all fields.

Mars Opposite Pluto Orb: 01°53'

Your energy has a way of getting away from you. You haven't yet learned to instinctively spot your stopping point and thus could wear yourself out through a relentless pursuit of your goals. A certain ruthlessness marks your actions when someone tries to thwart you. When you meet an obstacle, you are likely to force it out of your way without thinking of other people or the consequences of your behavior. At work and home, don't expect others to keep up with your hard-driving pace. To preserve your energy for the future, learn to pace yourself. Consistency and persistence bring you more success than sudden bursts of frenetic energy.

Jupiter

Jupiter is the feeler you have out in the world for opportunity. Through it the chances of a lifetime are passed along for consideration according to the basic nature of Sun and Moon. Jupiter's sign position indicates the places in which you will look for opportunity, the uses to which you wish to put it, and the capacity you have to react to and profit by it. Jupiter is ordinarily, and erroneously, called the Planet of Luck. It is "luck" in so far as it is the index of opportunity; but your luck depends less on what comes to you (Jupiter) than on what you do with it (the total personality). Opportunity appeals to you along lines laid down by your Jupiter.

Jupiter in Aries

Opportunity appeals to you along lines related directly to ego justification. This can take the aggressive "I-can-do-anything" form or the passive, timid "Am-I-fitted-for-that-am-I-capable-of-doing-that?" Opportunity isn't primarily a chance to make money, to achieve glory, or to serve, but is something more, and personal. Depending on the biases of your ego, this will be a broad or a narrow influence. It tends to add fire to an already self-assured nature and to give some self-assurance to the timid soul. One of two dangers besets you: (1) over optimism about your own talents, and a consequent eagerness to try anything once, resulting from the feeling that nothing is too big for you; (2) limitation of opportunity to a narrow ego demand, the result of a limitation in self confidence, and a resultant refusal to step outside the confining areas you have set up for yourself. In any case, you're likely to be happy in your work, because you naturally gravitate to a work that satisfies you, and you cannot see opportunity along any other line. You must stand aside from yourself, examine your inner career motives carefully, and discover whether, by following your deepest desires, you are not limiting unnecessarily your field.

Jupiter Square Saturn Orb: 09°28'

You hold yourself back by being unable to imagine yourself in a higher place than you are. Your ambition is limited, and a certain humility hangs over you that keeps you from recognition. It isn't so much that your luck is bad or your abilities low, for you are a careful and conscientious workman - what really hurts is the narrow range of your imagination. Where other people see themselves forging ahead, you think you're lucky if you can keep the wolf from the door. You have to set your goal in the stars if you're going to so much as get your head above water, the competitive world being what is is. Read the poetry of Robert Browning, get inspired, and realize the "Not failure, but low aim, is sin."

Saturn

Saturn indicates the direction that will be taken in life by the self-preservative principle which, in its highest manifestation, ceases to be purely defensive and becomes ambitious and aspirational. Your defense, or attack, against the world is shown by the sign position of Saturn in the horoscope of birth.

Saturn in Cancer

This is a powerful if complicated position and generally indicates a parent fixation. The need for self-justification is the deepest driving force of the life, welded into the psychological background by circumstances of the early environment, and causes you to take one of two directions. (1) You become an introvert: you despair of being able to justify yourself and withdraw into yourself defeated. This of course is a destructive development, and should be fought off in favor of: (2) You require the maximum of self-justification to overcome a deep sense of inferiority and go out to battle the world aggressively to compensate for your (real or imagined) shortcomings. Psychologically, this is a "little man" position: your opinion of yourself is low, and you make up for it by assuming it to be high and living up to the assumption. This leads to success through considerable tension and stress. Material matters are important to you; security is one of your

requisites, and you may acquire, and lose, much property before you die. Acquisition may be closely linked to your need for self-justification and thus make you grasping. You may come from a poor family and feel the need for overcoming the initial handicap. Or the power urge may be related to possessions. Though a home is important to you, you are not a warm-natured person. You may delude yourself into thinking you need love and sympathy which you don't get, but close examination will prove that what you really want is respect - which you will get. You can utilize this position of Saturn as the hub of your life, and from it make the spokes extend far in almost any direction.

Saturn Sextile Uranus Orb: 03°15'

You are supported by apparently inexplicable forces, able to put across plans that others fail in and you will build your plans swiftly. If you are an artist, engineer, architect, railroad man, military or naval leader, or politician, there is a touch of the unusual about you or your work. You are a striking personality, able to "get away with" very odd ideas which unaccountably work out. There's a touch of inspirationalism about you, a quick constructive perceptivity, that wins supporters and seems magnetically to attract success.

Saturn Trine Neptune Orb: 01°09'

This combination bolsters and supports powerfully whatever other tendencies are shown in the horoscope. This aspect is more helpful on the purely creative and artistic side, and if you are engaged in such work your practical idealism shows forth in it to give worldly significance to a touch of other-worldliness. The concrete yet fantastic art of Arthur Rackham is symbolic of the sort of expression that this aspect makes possible - earth magic, which, whether you are an artist or not, lends an elusive but perpetual support to all your material activities.

Uranus

Uranus in a general way relates to the neuro-mentality, creative originality or individuality, and his position by sign in the horoscope tells the direction along which you will seek to express your most characteristic self in creative and original effort. With Uranus in the same sign as Mercury, Uranus indicates acute awareness, quick reaction to sense impressions and experience; a hair-trigger mind. With Uranus in the same sign with the Sun there is great nervous activity, high-strung nature, original, creative or eccentric behavior. With Uranus in the same sign with Mars, Uranus indicates high speed activity, love of swift motion and perhaps of danger.

Uranus in Virgo

Your originality is most likely to assert itself along lines of organization, routine, or social welfare. If you work along your most characteristic lines, it will be to make some contribution to social or business systems. You can be an efficiency expert in the service of capitalist industry and make your genius valuable along that line. Or your desire to serve may take a broader and more humanitarian form, and you may become a leader of social thought, applying your systematic genius to large problems of labor and social welfare. Your most characteristic expression will be found in connection with work, its methods and its efficiency; or in connection with social service

and progress. You are more likely than not to be on the side of social change aiming at division of labor and the general good of society, and probably feel at home with the changes and even turbulence.

Uranus Sextile Neptune Orb: 04°24'

This aspect occurs very seldom and when it does, amounts to a world condition and requires rather special factors in the individual horoscopes to make it show forth. In general, it is a supporting aspect of material benefit, helping to improve a good horoscope and lending some support even to a bad one. It inclines to a practical interest in the occult. It sharpens the perceptions. President Franklin D. Roosevelt is representative of the race of giants which this aspect is capable of producing.

Neptune

Neptune relates to the deepest wells of the subconscious, inherited mentality and spirituality, indicating what you take deeply for granted in life.

Neptune in Scorpio

The people and nations of the world are aware of the awesome, death-dealing possibilities of nuclear war. Atomic-powered submarines in the depths of the seas play their role in the struggle for power. Those born under this influence want to plumb the secrets of the Universe. The mystery of life and death is theirs to fathom. They are enthralled by occult studies, chemistry, invention. Neptune in this position intensifies the emotional nature. There is a tendency to be secretive and mystical. Gain through inheritance is possible, as well as financial ties with others; partnership, and marriage. There is a great possibility of possessing marked extra-sensory perception. Caution must be exercised regarding drugs and strong beverages, and dabbling in spiritualism. The sex instincts must be channeled in the right direction since the craving for sensation is very strong. You have recuperative powers and a desire for reforms.

Neptune Trine Pluto Orb: 09°15'

The ideas that were instilled in you by your parents, church and society will undergo changes throughout your life until your religious and philosophical views are distinctly your own. This type of creative adaptability makes you able to forgo selfish concerns and direct your efforts toward the betterment of all. Artistic and/or psychic talents are possible.

Pluto

Pluto relates to the ability to let go of things, to get rid of irrelevant prejudices and outdated habit patterns. It relates to subconscious feelings, inner urges and repressed emotions. A strong Pluto gives the ability to see the hidden side of life, and thus bestows power on the native - power which can be used for good or ill.

Pluto in Aquarius

The Age of Aquarius has been dawning for some time. Now you will see the full fiery sphere above the horizon, inhale the invigorating eucalyptus or peppermint vapors of a new way of living. This is a mental time. We are intrigued by the machinery of the Earth, the organization of elements, and there is a need for all of us to be mechanics in our chosen fields. We have to understand what we're doing and how it relates to the greater good. We will be especially sensitive to any retro-activation into narcissistic habits and frames of mind. Vestiges of totalitarian rule will wither on the vine, and vintners of oligarchy merely self-destruct in a vortex of popular resistance. Individuality will be so strong that we no longer feel such a need to assert it. This will be a time of brilliance. New speed will characterize communication technology. Pluto in Aquarius represents the opportunity to perfect psychic ability and empathy. The efficacy of the written word will need examining. Telepathic talents will need the support of trust.

Current Transits

The current transits are calculated exactly for the date shown. Lewi wrote text only for the aspects that he considered to be the most significant and only those are shown in this report. The dates shown only represent the times when the aspect is exact; its influence is felt for weeks, months, and sometimes even years around this time. A planet will often make the same aspect several times in one year before it leaves that area of the zodiac and moves on. This is due to the planet appearing to go backward or retrograde for a period of time and crossing and recrossing the aspect point. When this happens the effect of the aspect can be spread out over a considerable time and in this report the aspect and text will be printed for each time it becomes exact, although this series of aspects represents only one pass through this phase of its cycle. Remember that each transiting aspect is part of its over-all cycle and indicates a change of direction as well as an event. The cycle for a planet is the time it takes that planet to travel the entire 360° of the zodiac, beginning at the point where the planet is found at birth (the conjunction point), moving to the 90° point which Lewi calls the "lower square", then moving to the opposition or 180° point. Then it begins to move back towards the starting point, at the 270° point, or 90° away from the starting point, the planet is at its "upper square", and then it returns to the conjunction point where a new cycle is begun. Lewi will occasionally refer to these points in his text by name. In general all transits, whether of a planet to its own place or of one planet to another, mark cycles of growth beginning at the conjunction point, growing through the first square, fully grown at the opposition point, beginning to recede at the second or upper square, and finally starting a new cycle as it reaches the conjunction point again.

How long any aspect will be in effect is determined by the speed of the planet making the aspect (the first planet, i.e. Mars in Mars Opposite Sun). One Mars cycle is about two or two and one-half years and so a Mars aspect will last about 20 to 30 days. Jupiter takes about 12 years for its cycle and so its aspects could last around 4 months, while Saturn with a 29 year cycle will last 9 months or even more if it turns retrograde. Uranus, Neptune, and Pluto are all long range aspects and usually represent a time of 2 or more years. While Saturn and the outer planets indicate long range influences in your life, Mars aspects will identify important months and Jupiter will identify important years. Not every occurrence of these will be of striking importance. But within a larger Saturn cycle or Uranus period of great importance, these briefer influences will be found to act as the second or minute hand of the clock of destiny, as Saturn, or Uranus, or both, act as the hour hand.

Jan 27, 2025 - Neptune Square Moon

While your outer nature, the side you show the world at this time, may remain simple enough, your inner nature is a complex mechanism full of contradictions, doubts and perhaps delusions.

You get fixed ideas about yourself which may not bear any time relation to reality. You may think yourself better or worse than you really are; more, or less, capable. The acid test of what you feel and think is your willingness to try to do something about it. If you think yourself bad, ineffectual, you should want to improve and should set about doing so. If you think yourself super good, you should be eager to let the world know it. If you are unwilling to submit your feeling to the test of reality - if it is something that you save to brood over - you can rest assured that it is delusional, and you should make every effort to root it out of your thinking. Health suffers through fixed ideas. Emotional matters that at another time would pass unnoticed become unduly magnified; there is some danger of hypochondria, melancholy, depression or elation of spirit. Material and practical matters suffer because your mind is not concentrated on them; human relations suffer because you find yourself more absorbing than others. The best plan under such conditions is to do as much as possible objectively; to turn your thoughts outward, away from yourself; and to reject the temptation to crawl away by yourself with your pet private thoughts, which more likely than not are simply an escape from reality.

Feb 6, 2025 - Mars Square Jupiter

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

Feb 24, 2025 - Neptune Opposite Mercury

There can be confusion of the senses, inaccuracy of thought, errors of judgment due to erroneous sense impressions and improper application of logic. You tend to believe what you want to believe and, despite evidence, to refuse to look facts in the face; you seek escape. There is danger of developing bad habits. In controlled, mature individuals, You have creative force, necessitating plenty of self-discipline to keep the mind working smoothly along progressive channels: it tends to slip off into impractical and intangible daydreams.

Mar 14, 2025 - Mars Square Jupiter

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

Apr 30, 2025 - Saturn Square Moon

This is a period of some emotional stress, perhaps a physical or material setback. Your personality begins to work toward objectifying itself, and you are now finding that you may lose something in the process. Not to feel sorry for yourself is the chief prescription for this period. What you will lose is mainly sentimentality - an attitude toward yourself better forgotten. What you gain is re-evaluation of your personal qualities, an ability to stand outside yourself, and to marshal

your mental and emotional energies so that you will continuously master them in the future. You gain a certain hardness, which need not destroy your human qualities, but which will enable you to use mental, emotional and creative powers more effectively in the future. The beneficial result of this period is self-mastery through objectivity and detachment. In lovematters you may have a difficult period. In material matters you are likely to mark a low point. The ego is too much occupied with itself to be materially effective in the world, but learns the need of effectiveness as a result of this experience. This square paves the way for the Moon opposite Saturn which will come in about 7 years; the more you learn here, the less stress will be found in the opposition when it comes. During this period you are able to learn by the experience of others or to help others with what you have learned by your own experience. What happens to you here or to those around you should be taken to heart and applied to yourself. The aim should be self-discovery through emotional experience: taking your whims less seriously, that you may take your true virtues more seriously.

May 10, 2025 - Saturn Opposite Mercury

This aspect deepens mental processes, providing concentrative powers for deep study and thought. It is usually accompanied by some mild or acute melancholy and depression, which work and self-discipline will minimize. Loss of self-esteem is likely - the thought that you're no good becomes acute. Keeping your mind on things outside yourself helps. Study, reading and writing are excellent, though creativeness and originality fail you. Don't worry must be your motto; also Face the facts. Escapism leads into bad nervous tangles. This is a good aspect to have while in school or college, when opportunity for study is greatest and the "cold, cold world" is not yet a reality that you have to consider. Coming later when you're out in the "cold, cold world," it indicates a period when you can return to the student state to good advantage, putting your mind on objective fact rather than on emotional concerns. Finances are under tension; there is a need for budgets, restraint and efficiency.

May 31, 2025 - Jupiter Opposite Moon

These are periods of physical and mental excess, generally resulting in fatigue and a necessity to take time off and rest. Self-indulgence wears you out and requires a holiday. This is a good time for a vacation. If you can afford to relax (and you really can't afford not to), you can enjoy life here. Be careful of excesses with money and emotions, protect your diet. The pleasures of food and drink are very alluring and make plenty of trouble if indulged in.

Jun 15, 2025 - Mars Opposite Pluto

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Aggressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. You might be knocked off your throne for no apparent reason. You could emerge from this period thinking the universe is a quixotic, capricious place, or you could take events as keynotes of respect for structure and self-care.

Sexual energy will be high. You could find yourself surrounded by irresistible people, and the tendency is to think that the veil between you and them is much thinner than it really is. Take time

to treat people respectfully. Take this opportunity to de-objectify your world view and adopt a more service-oriented demeanor. Depending on how successfully you have mastered life's trials, this could be a time of "icing on the cake". Just make sure the recipients of your "death blows" are the nasty loitering ghosts in your own psyche, not the people on the street whom these ghosts resemble.

Jun 19, 2025 - Mars Conjunct Mars

This is a period when new starts should be made, new plans put into execution, new ideas promoted. Energies work along their most characteristic line and can be utilized to excellent advantage. Control natural impulses if you have any that get you into trouble, because now is the time when you are "being yourself" and it is your business to be your best self, not your worst. You are starting a two year cycle and should establish the line you want to continue on for the next twenty four months. Seek new contacts, new avenues of self-expression, new channels into which to direct talents and energies. Beware lest anger and temper - letting go because you're feeling your oats - interfere with your best development. In your life check-up you will find that these recurrent two year periods marked with great consistency periods of important decisions, developments, activity and changes.

Jul 1, 2025 - Mars Conjunct Sun

The new starts of your Mars conjunct Mars are helped greatly with this aspect; your energies work smoothly, starting with Mars conjunct Mars (Jun 19, 2025) and gaining momentum as this aspect is reached.

Your danger at this time is temperament, temper, a tendency to feel your own importance too strongly and to get into trouble because of it. Also, unless you have the endurance of an ox, you will tire yourself as Mars transits your Sun, and fatigue is likely to lead to strife, breaks and separations. Translate your energies to work, activity, detached application to a job or task; and don't get touchy or allow personal reactions to interfere with efficiency. This can be a romantic period; your magnetism is high, and you are likely to get what you want if you moderate your demands and use more persuasion and less insistence than you want to. Intuitions can go wrong, and you need the balance of strict mental discipline to bring out the best of your energies. However, it is an excellent time to go after what you want, and marks periods of important decisions and moves.

Jul 9, 2025 - Mars Conjunct Uranus

Expect temperament, haste and anxiety. Your nerves require watching. These problems can lead to illness from fatigue and nervous exhaustion. You risk accidents (literal and figurative!) from excess speed and lack of care over details. Watch temperament. Accidents in the realm of human relations result from overemphasizing the ego and minimizing the other fellow's viewpoint. Inventiveness abounds; originality is in the saddle; but you can't get your best and truest ideas over to any good advantage, and simply make trouble if you "try too hard." Store them up for a later time when you express them better and when other people listen to you more readily. Look out for machinery, travel, electricity; avoid danger, be careful getting on and off trains and crossing streets.

Jul 22, 2025 - Jupiter Conjunct Saturn

This aspect brings a sobering influence which enables you to dig into your trenches of security and raise your standard of living according to the terms of your life and job as you find them. It will bring opportunity only if you are able to see it in routine channels. This is not a good time for change. Under normal conditions, this will pass more or less unnoticed, except that you slowly and unobtrusively accumulate power and authority in whatever work you are doing. Coming in a period of unemployment or depression, it breaks the deadlock, providing you an opportunity to make a new start which should not be rejected because it is slow or "beneath" you.

Aug 3, 2025 - Mars Square Moon

Fatigue leads to strife, so relax. There may be illness and you may lose your grip on things. Refuse to take yourself too seriously. Go to bed and rest instead of brooding; you'll avoid strife and trouble thereby. Force no issues. Energy may find its expression in some glamorous romance which may or may not be important, depending on other long-range transits in force at the same time with this.

Aug 4, 2025 - Mars Conjunct Mercury

Sharp wits help if you use them right, hinder if you get smart-alecky with them. Snap judgments, quick speech, sharp retorts and anger make trouble. On the other hand, keen perceptions give you the edge on others; you express yourself readily and to good effect if you keep emotions and personalities out. Sensory perceptions and powers of observation are increased. Creative powers mount; rapidity of mental processes enables you to do more than usual. Mental fatigue can result; budget time for relaxation and sleep. Any tendency to insomnia is emphasized; also to temperament, temper and self-will. This is a good time to sell, bad time to buy. Business is active, judgment shrewd. Sign no papers, don't commit yourself permanently; the picture changes too rapidly. Avoid strife, especially over trifles. Distrust intuitions; put deep trust in hard work and pure reason.

Aug 5, 2025 - Uranus Square Mars

Erroneous methods in contacting the world lead to loss of self confidence. You stand in your own light. Fear supplants assurance, and when you try to assert yourself, you tend to arrogance. You know what you mean, but you can't say it and when you try, you are misunderstood. Quarrels, setbacks, stoppage of progress and a sense of frustration result; you emerge shaken and in need of rest. Few go through this period without being put in their place. It is unfortunate to have this aspect coincide with one indicating opportunity, for this will probably cause you to muff it. Lie as low as possible and make self-effacement your credo. You win by retreating. This is a time of passive resistance to circumstances, not for pitched battle with them. You may experience accidents - both literal and figurative. Trace out carefully the part you have played in your own failure in this period; to learn this is to understand yourself better.

Aug 12, 2025 - Mars Conjunct Venus

Heightened emotions make romance, which is favored if you keep it within the bounds of

reason and convention. Impulsive acts, with or without a future, are frequently found in these recurrent periods. Glamour surrounds your approach to life; you are susceptible to the opposite sex and they to you. This transit frequently indicates the time of marriage within the period of a longer transit that favors it. If the era of romance is past, this indicates an active and on the whole satisfactory social period; business progress; extravagance with money; a sudden urge to go places and do things - and perhaps a chafing at the marital bit which should not be taken too seriously. Energies work through emotions and passions, which in turn work overtime and should be gently disciplined though not entirely submerged. Often, for obvious reasons, this transit indicates the conception of children, especially if it occurs while Mars is conjunct your sun or conjunct your Mars.

Sep 5, 2025 - Mars Opposite Jupiter

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

Sep 7, 2025 - Jupiter Square Jupiter

These periods fall halfway between Jupiter's conjunction with his own place and his opposition to it and indicate minor shifts in emphasis in your work and life plan. Opportunities may become more numerous; or, as is the case most of the time, you will simply be busy with what you are doing, and perhaps careless of money as a result. Financial status at these periods tends to remain fixed for about three years, and you should budget ahead according to the situation you find yourself in.

Sep 18, 2025 - Saturn Opposite Mercury

This aspect deepens mental processes, providing concentrative powers for deep study and thought. It is usually accompanied by some mild or acute melancholy and depression, which work and self-discipline will minimize. Loss of self-esteem is likely - the thought that you're no good becomes acute. Keeping your mind on things outside yourself helps. Study, reading and writing are excellent, though creativeness and originality fail you. Don't worry must be your motto; also Face the facts. Finances are under tension; there is a need for budgets, restraint and efficiency.

Sep 29, 2025 - Saturn Square Moon

This is a period of some emotional stress, perhaps a physical or material setback. Your personality has worked toward objectifying itself, and you are now finding that you have lost something in the process. Not to feel sorry for yourself is the chief prescription for this period.

What you have lost is mainly sentimentality - an attitude toward yourself better forgotten. The ego is too much occupied with itself to be materially effective in the world, but learns the need of effectiveness as a result of this experience. This square occurs about seven years after Moon opposite Saturn and is a postgraduate course in the lessons learned then. During this period you are able to learn by the experience of others or to help others with what you have learned by your own experience. What happens to you here or to those around you should be taken to heart and applied to yourself. The aim should be self-discovery through emotional experience: taking your whims less seriously, that you may take your true virtues more seriously.

Oct 4, 2025 - Mars Conjunct Neptune

Super intuition gives you uncanny insight into motives and methods of other people, but not always into your own. Practice self-analysis. You swiftly feel your creative power, of which you can make good use. Beware sensationalism, sentimentality, self-indulgence; fight subconscious urges, suppressed desires, and make your inner ego work for you along constructive lines. This is an excellent period for creative work, for impersonal use of magnetism for business ends and aims and for social popularity. You have glamour that attracts others: be sure it attracts the right kind of people and for the right reasons. The Old Adam rears his head and may require discipline.

Oct 8, 2025 - Uranus Square Mars
