Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes

thoughtfully and well - and keep track of exactly what happens all day, as much of that may be reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through...

The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Communicator

Ascendant in Gemini

Communication is your sword and shield this year, and there is nothing you can't talk your way into or out of if you're willing to invest the time to discuss it. Discussion and action are two different things, however, and there comes a point when words aren't enough and it's time to put ideas to the test. Even then, you'll be able to refine your efforts on the fly as you pick up new information and use it to guide your ongoing operation. It's all about keeping the lines open and involving input from others, which then becomes your own.

Physical Conservation Arises

Saturn Trine Ascendant

A careful, more conservative and less playful approach may be in store for you this year, or at least that's how you'll appear to others. It's not that you're no fun, just less likely to buy every new product before it's even out of the box. Better to be redolent in the old joys than dive into a new one with less certain prospects.

Conserving Power Arises

Pluto Trine Ascendant

Confidence in the way you bear yourself is high this year, and you move like you've already gotten where you're going, which is a good way to assure your getting there. When you know you're right, everybody tends to go along with you, including yourself, like you have destiny on your side.

The Midheaven

Your Reputation, Career, Life Path

Manage Community

Midheaven in Aquarius

Everyone seems to have a different take on your accomplishments this year, so you may seem to be playing more roles than you bargained for. Use it to your advantage to diversify your portfolio, both in what you do and who you are, as doors open to new territory with your name on them, even if you didn't put it there.

Manage Emotional Progress

Moon Square Midheaven

Your emotional concern with personal affairs this year may distract from longer-term career or life-building when they don't all exactly compliment each other, which they won't. It's a matter of playing one off the other so that each benefits and neither suffers, which tends to begin exactly the other way around.

Manage Mental Conservation

Mercury Trine Midheaven

Ideas you have about the more physical and mundane sides of life this year will go a long way in supporting your overall reputation and getting your image out to the public. Clever management of resources, efficient use of time and money, all are on the table for reconsideration and conceptual improvement.

Manage Problems

Saturn Conjunct Midheaven

You may have to take extra care to promote or defend your reputation this year, as getting people to hear about your latest accomplishments may be more difficult. You're better off carefully promoting older stuff, things you've done a long time ago, as that's what they're more interested in hearing about for the moment.

Manage Sudden Progress

Uranus Square Midheaven

Unexpected personal affairs and involvements can get in the way of business and trip you up, slow you down this year. It's about juggling unanticipated developments and wedging them into previously-arranged schedules that don't easily fit. Redesign on the fly, apologize later, as it's not your fault, it just happened that way.

The Sun

Your Inner Personality and Style

Caregiving

Sun in 6th House

You discover new-found freedom in undertaking responsibilities this year that might have seemed restrictive or beneath you at other times. The importance of service becomes obvious when you realize that when you give of yourself you are actually giving to yourself. When you identify with the smaller rhythms of the day, you reflect and become part of the larger picture. Little steps make big progress and former impatience becomes a steady hand guided by greater understanding of why you do what you do and must. When you give, the hand that receives is in fact your own.

The Foundation for Your Year (continuation)

Full Experience

Moon Opposite Sun

The full Moon brings a year in which personal matters are brought to fruition and development comes to a head. You've expanded the envelope as far as it can go, so you can stop looking outward and begin digesting the work you have accomplished, cash in some of your chips, look for ways to invest your efforts.

Ideas for Effort

Sun Conjunct Mars

It's going to be a forceful, high-energy year for you, so expect to be putting out all the time and feeling like doing just that. The heat in your kitchen is high, however, and some lower-keyed people may reasonably want to escape it, so don't push your pace on others not up to the task. You want help, not baggage.

Conserve Success

Sun Trine Jupiter

Steady, expansive growth is a key to your personality this year, as you build on each new development to enable the next to be even larger and better. It's an ever-increasing spiral that's the trend for the year, so make the most of the flow before the added planetary dimension passes.

Public Authority

Sun Square Saturn

Older, more established people and situations can be a drag on you this year, particularly if you take their criticism to heart. Don't let those who would suck the life out of you have a drop more than you have to spare. Self-inspection is a good thing, but random search and seizure from others is an invasion.

Public Change

Sun Square Pluto

If you feel you're being buffeted about by fate this year, you're on the mark. There are a lot of things you personally just can't do much about, and they seem to present themselves as if you could, which can lure you into fights you can't win. The courage and intelligence to just walk away is the wisdom of the hour, so use it.

The Moon

Your Feelings, Reactions, Emotions

Fertility

Moon in Taurus

Your emotional pace this year is likely to be more deliberate, gradual on the uptake as you take extra time to make sure your reactions are correct and your feelings are both sincere and enduring. You'll find yourself more patient and willing to absorb and tolerate rough or uneven patches that might normally get you riled up or annoyed. There's a feeling that it's worth the added effort to decorate your inner life with depth and content that may require added expense or effort because the end result is so much more satisfying. For the moment, you can skip instant gratification, go for the 24-karat life...

Psychological Support

Moon in 12th House

You can get yourself in trouble this year if you don't watch how you react to things right off the bat. Before you respond with a big yes, think twice about what you're getting into, no matter how it feels. Feelings and emotions can delude you, simply because you don't see what's happening behind your back. You may have the opportunity to uncover hidden and previously dark sides of yourself, but don't rush into dark closets without adjusting to the light. There's a fine line between inner discovery and waking sleeping dogs. When in doubt, let them lie this year, or wake them gently.

Experiencing

Moon Opposite Mars

Getting your feelings in tune with your actions may be a challenge this year, as the ability to act and the inclination to do so may not be in sync, but rather alternate. The result can be a bit like an engine missing, sputtering and kicking you along instead of providing a smooth ride. Give yourself extra play to correct your trajectory.

Sign of Discipline

Moon Square Saturn

Self-criticism can be acrippler this year, as when you withhold your inner response at the wrong moment chances for success pass you by. It's not so much lack of confidence but preventing yourself from expressing the confidence you have. Don't be your worst critic, leave that to others, sufficient unto the day.

Signs of Change

Moon Square Pluto

There's a constant contest to get control of yourself this year, and thus to get control of the situation around you. Part of the problem is in thinking you really can control things, and part of it is in refining your approach, which seems to fail you the first few time you try it out. Despite belief otherwise, it will be a compromise in the end.

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Social Communication

Mercury in Libra

You can't get your own mindset straight until you've inserted yourself in someone else's head and find out what you've got to deal with there. Assertive mind-changing will get you everything, even if it seems like you're interfering. Once you've got both sides playing the same game, yours, you can make the plan work.

Creative Ideas

Mercury in 5th House

Playful words are the lead-in to many an interesting conversation this year, and the freer you can be with them, the more will develop. The creative approach doesn't just happen – there's a plan behind it that helps it all unfold. What's yours? That's what you're about to discover.

Poet Critic

Mercury Sextile Venus

Planning ways to get what you want, whether that be personal or physical, isn't really necessary this year as things tend to run themselves under the radar, functioning on automatic. Indeed, if you're spending more time thinking about taking care of others' needs, you'll find your own taken care of behind your back.

Curator

Mercury Trine Saturn

Your thinking this year is unusually logical and orderly, which allows you to lay down some well-conceived foundations for projects in preparation. Unhurried solutions are usually the most lasting, and it takes a steady hand to put on the perfect finishing touches as well. From beginning to end, a deliberate pace makes for a robust resolution.

Venus

Your Needs, Wants, Desires

Spiritual Love

Venus in Sagittarius

You needn't be refined to have fun, and rough and rowdy pleasures that bring a belly laugh can be the most satisfying flavor of the year. What you do demand is that it be the real thing - no fakes, no additives, no pretensions. Drop the expected and try something new, with gusto, worry about altering it to taste after you've experienced the raw flavor.

Social Love

Venus in 7th House

They say you have to love yourself to love someone else, but this year you may discover that's the self-same thing – that the two of you are one. You find your every desire fulfilled through another, not through possession but through understanding that all you have to say is yes.

Public Unity

Venus Square Neptune

Like a greyhound chasing a mechanical rabbit, sometimes it seems your dreams are ever vanishing just before you reach them. But if life were really like that, no one would get up in the morning. This year, if your prey continually eludes you, it may be because it's not real to begin with, so stop pursuing it, find something else.

Mars

Your Energy, Life Force, Excitement

Social Drive

Mars in Libra

It's a year to poke around and change things, don't let dust gather on your efforts, but keep stirring the pot until you get the mix just to the level of your intention. That may involve proactive interference where you see an imbalance, but you'll be happier afterward that you insisted on involvement.

Creative Drive

Mars in 5th House

Work hard, play hard – this year may make them synonymous, as working creatively and playing intensely go hand in hand. The knack will be putting yourself in a place with just enough structure for direction but not so much that you can't gain momentum. Find the road, then jam the throttle.

Conserving

Mars Trine Jupiter

There's a strong, rhythmic, expanding energy available to you this year, just the kind to hit one or more out of the park with natural ease. Once you've tuned into that rolling, swinging sense of timing, you'll wonder why you don't have it all the time. Well, there's no time like the present to learn from yourself.

Power Partners

Mars Square Pluto

Breakage could be a problem coming from trying too hard to force the situation in a way that things just don't fit. There's an urgency to get the job done that may cause you to overlook that you're not doing it right, forcing a square peg into a round hole. The right tool for the right task is essential – check to see that's what you're using.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

Jupiter **Ambitions, Goals, Possibilities**

Community Career *Jupiter in Aquarius*
 The upward path will be much about giving everybody a piece of the pie and sharing all resources to pull ahead together. It's not a great climate for going solo, since everybody's looking to share both wealth and burden, but it's a good time to discover untapped potential in people and places which were there all along.

Management Career *Jupiter in 10th House*
 New opportunities for self-promotion await you this year, and whatever nice rumors you want to spread about yourself will fall on fertile ground. You'll be considered the latest thing if you just go along with it, but you'll have to keep up once you sign on to your own new image, so be ready to ride it.

Saturn **Caution, Wariness, Wisdom, Boundaries**

Obstacle: Community *Saturn in Aquarius*
 This year does not hold much promise for those who have entrenched themselves in commonness. The one-size-fits-all philosophy will see some serious setbacks as quality and quantity part company and leveling bureaucratic structures get shaken up and shaken down. If you've been tending to your own business, this fortunately won't include you.

Obstacle: Spiritual *Saturn in 9th House*
 Sometimes life is conceptually a lot simpler than it seems when reading the news. This year may illuminate, as you come to focus on the important concepts by which life should be lived and get rid of some of the speculative nonsense. Perhaps the good old ways have something to recommend them, after all.

Objective Research

Saturn Square Uranus

This fortunately rare year marks conflicts across the board between radical and conservative ideologies which tend to spiral and have difficulty finding peaceful resolution. Naturally, this provides an underlying tension to life that makes harsh realities harsher and good times more intense. Compromise, not confrontation, is the only way to go.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus **Discovery, Revelations, New Ground**

Freedom: Productivity

Uranus in Taurus

There begins an inexorable seven-year build-up of recently-learned harsh truths that actually makes structure out of revolution, but at a price that will only be appreciated afterwards. Because of previous breakdowns, much is tolerated that would not otherwise be put up with, all in the name of a new deal, which may be learned from but have to be at least partially undone afterwards.

Freedom: Giving

Uranus in 12th House

Explosions in hidden places surprise everybody this year, most of all you. That doesn't mean anyone is blown to smithereens, but it could be a bit of a shock when you thought you had things well in hand. It only comes from out of left field when you're staring at right field, so scan the park more evenly.

Neptune **Dreams, Hopes, and Fantasies**

Embrace: Life

Neptune in Pisces

Spiritual revival will be just one hallmark of this period, as will a general tendency for those who pretend to it not to give to those who actually do it. Flights of romanticism are daily fare, even to those whose life is not romantic in the least. When there is nothing else, there is always a dream, a pure dream, waiting just beyond.

Embrace: Community

Neptune in 11th House

Fond friends are more than fancy this year, providing a soft sanctuary from occasional hard landings. It may be just your imagination, but a little love always there beats a passing passion as the years progress. The thing about a good imagination is, it is so often the progenitor of truth.

Change Blocked

Neptune Sextile Pluto

This year sees you part of a rare but lengthy outer planet dance that happened throughout the 1950s and again in the 1970s and puts a deep background of a generation when spiritual issues are not forced but sort of proceed in a leisurely matter without conflict, either because of mutual respect or blissful unawareness.

Pluto

Necessity and Fate, Power, What Must Be

Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

Control: Spiritual

Pluto in 9th House

Big ideas are like a bludgeon against armor – you can pound away all day with them and only make a dent. If you rely too much on principle, just that may happen this year. It is the individual point that penetrates which defuses the situation. Talking theory to the point of threat is a dead end, better to talk turkey over the table.

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Moon

Your Feelings, Reactions, Emotions

Feelings Are Accented

Moon Conjunct Moon

You're likely to feel very comfortable in your emotional approach this year, as it's a replay of your own birth situation. It's like you're wearing a familiar pair of old shoes that do the walking for you. When you play it like you feel it, you've got a pretty good idea of how it's going to come out.

Sun

Your Inner Personality and Style

Ideas for Effort

Mars Conjunct Sun

You'll be burning hotter than usual this year, and your sometimes fiery approach to selling yourself can be just what's needed to heat up passions all around. You'll have more energy to spare, to add to your endeavors in work or play, and you may tend to leave others behind who aren't up to your inner intensity.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Ideas to Express

Mars Conjunct Mercury

This year may set your mind on fire from the sheer energy of the ideas that you find yourself involved with and the sometimes heated discussion that necessarily hammers them into shape in the forge within. Caring about what you say and forcing it into action is paramount, but let your intellectual steel cool before you wield it too rashly.

Saturn

Caution, Wariness, Wisdom, Boundaries

Skillful Ideas

Jupiter Conjunct Saturn

This year is an important breaking point in your life, one which may bring you real tangible gain and open new doors which had been shut to you for lack of resources. It means a break from the past and those things which have tied you down, but will only benefit if you have the courage to take the ball and run.

Jupiter

Ambitions, Goals, Possibilities

Career on Horizon

Ascendant Conjunct Jupiter

You feel like you're really connected to the latest thing this year, or maybe what you've always felt was the happening idea has finally come around to be recognized. Likely that's the case, so make sure you get your ambitions out there and connected with the general moving state of progress.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Oct 20, 2021 to Oct 20, 2022

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

Ideas to Express

Mercury Conjunct Mars (TR-SR)

Ideas catch fire and the mind races as your thinking cap jams into fifth gear. A heady time, indeed, but you'll need to keep pace with the rest of the world, which is experiencing the same thing. Anything you choose to do with your interior software will keep this high pace in times to come, so strike while the iron is hot.

Conclusion

Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

5. Take It In Context, Put It All Together

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
